Details:

1. The Prosolutions training module is titled : Licensure Rules and Regulations
The training module is divided into 9 short sections, with quizzes that must be passed at the end of each. This is a 3 hour course (it did not take me 3 hours). You will be paid for your training once you have printed your certificate and turned it into leadership.

I have completed the modules and here is some info to know:

****Not all questions are answered in the training slides, so if you are not well versed in the rules, you may need to search for the answers in DHS rules. I have attached a copy of the current Licensure Rules for you to share with staff.

To search in the rules, hit the Ctrl and F key at the same time and a search bar will pop up. Then you can search for the answer.

<https://publications.tnsosfiles.com/rules/1240/1240-04/1240-04-01.20220629.pdf>

****They try to trick you in their verbiage. Pay close attention to how they are wording the question.

****If you do not pass with an 80 the first time, a screen will appear and show you what you missed. Learn from what you missed and retake the test. If you fail the test a second time, you will need to email support@prosolutionstraining.com for them to reset the test.
